Geology Section
421100 E
 Palmer Project
 South Wall Zones
 50 m Section Width
 July 2017

* denotes new 2017 drill hole intersection
 See table for Au, Ag values.

Legend

- 0-5% Cu Assay (Green bar)
- 0-10% Zn Assay (Blue bar)
- Topping Direction
- Hanging-wall basalt (Green)
- Hanging-wall FP basalt (Light Green)
- Mixed sedimentary & volcanic rocks (Grey)
- Massive sulfide zone (Red)
- Sulfide stringer zone (Red with white dots)
- QSP-altered (FP) volcaniclastic rocks (Orange grid)
- QSP-chlorite altered (MZ) basalt (Green grid)
- Strain Zone - FP Lentil (Light Green with dashed lines)
- Footwall FP basalt (Light Green)
