NEWS RELEASE

CONSTANTINE SIGNS NEW INVESTOR RELATIONS AGREEMENT

Constantine Metal Resources Ltd. (“Constantine” or the “Company”) (TSX Venture - CEM) is pleased to announce the signing of an investor relations agreement with San Diego Torrey Hills Capital, Inc. (“Torrey Hills Capital”) to provide comprehensive investor relations services for the Company. The investor relations agreement is subject to TSX Venture Exchange approval.

Torrey Hills Capital will assist the Company in gaining exposure to investors through the dissemination of corporate information to a network of brokerage firms, financial institutions and private investors. This initiative reinforces the Company's commitment to improve communications and information flow to its shareholders and the investment community with respect to the proposed exploration activities in Ontario, British Columbia, Yukon, and the United States (Alaska and Idaho).

California based Torrey Hills Capital is a leading investor and financial public relations firm specializing in small and micro-cap companies, primarily in the natural resource sector. Torrey Hills Capital will increase awareness about Constantine through its established relationships with investment professionals, investment advisors, and money managers focused on the microcap market space. This will allow Constantine to build and maintain an informed investor audience in both the US and Canadian marketplaces.

Torrey Hills Capital will also develop a profile on Constantine for coverage on its website, www.babybulls.com, a website developed to showcase and provide exposure for emerging micro-cap companies to an audience of proven micro-cap investors. (Note: Information contained on the www.babybulls.com website is not the responsibility of the Company and is not endorsed by the Company).

Torrey Hills Capital has been engaged for US\$6,500 per month for the six month period with an initial performance review after three months. Torrey Hills Capital has been granted options for the purchase of up to 250,000 shares of the Company at a price of \$0.27 per share exercisable up to February 20, 2014. The Options shall be subject to the terms of the Company's stock option plan and will vest in accordance with the provisions therein and the policies of the TSX Venture Exchange, which require that options granted to a consultant providing investor relations services must vest in stages with no more than one-quarter of the options vesting in any three month period.

About Constantine

Constantine is a gold and copper exploration company with multiple active projects located in premier North American exploration environments. These are highlighted by the 100% owned Palmer Project, where Constantine has discovered a new copper-zinc-silver-gold deposit in a very accessible part of southeast Alaska, and the Munro-Croesus Project, that includes a past-producing mine property that yielded some of the highest grade gold ever mined in Ontario. The Palmer Project is host to a National Instrument 43-101 compliant 4.12 million tonne inferred resource grading 2.01% copper, 4.79% zinc, 0.30 g/t gold and 31 g/t silver (using an NSR cut-off of US\$75/t; see news release dated January 20, 2010) that is open to expansion.

Constantine controls a major land position in an emerging new Carlin-type gold district in Yukon that is part of a 50/50 joint venture with Carlin Gold Corporation, and recently optioned its Trapper Gold Project in northern British Columbia to Ocean Park Ventures Ltd. which is committed to spend a minimum \$750,000 this year as part of its \$4.75 million 50% earn-in. The drill ready Trapper Gold Project hosts a +2000 meter long by 200 meter wide gold-arsenic soil anomaly with values up to 8.6 g/t gold. In addition, Constantine has a 100% interest in the large, 8300 hectare, Phoenix Gold project in the active Shining Tree gold area, Ontario and a 100% interest in the newly acquired Hornet Creek gold-copper-barite prospect in west-central Idaho.

On Behalf of Constantine Metal Resources Ltd.

“J. Garfield MacVeigh”

President

Forward looking statements: This news release includes certain “forward-looking information within the meaning of Canadian securities legislation and “forward-looking statements” within the meaning of the United States Private Securities Litigation Reform Act of 1995 (collectively “forward looking statements”).” Forward-looking statements include predictions, projections and forecasts and are often, but not always, identified by the use of words such as “seek”, “anticipate”, “believe”, “plan”, “estimate”, “forecast”, “expect”, “potential”, “project”, “target”, “schedule”, “budget” and “intend” and statements that an event or result “may”, “will”, “should”, “could” or “might” occur or be achieved and other similar expressions and includes the negatives thereof. All statements other than statements of historical fact included in this release, including, without limitation, statements regarding potential mineralization, interpretation of prior exploration and potential exploration results, the timing and success of exploration activities generally, the timing and results of future resource estimates, and future plans and objectives of the Companies are forward-looking statements that involve various risks and uncertainties. There can be no assurance that such statements will prove to be accurate and actual results and future events could differ materially from those anticipated in such statements. Forward-looking statements are based on a number of material factors and assumptions. Important factors that could cause actual results to differ materially from Companies’ expectations include actual exploration results, changes in project parameters as plans continue to be refined, results of future resource estimates, future metal prices, availability of capital and financing on acceptable

terms, general economic, market or business conditions, uninsured risks, regulatory changes, defects in title, availability of personnel, materials and equipment on a timely basis, accidents or equipment breakdowns, delays in receiving government approvals, unanticipated environmental impacts on operations and costs to remedy same, and other exploration or other risks detailed herein and from time to time in the filings made by the Companies with securities regulators. Although the Companies have attempted to identify important factors that could cause actual actions, events or results to differ from those described in forward-looking statements, there may be other factors that cause such actions, events or results to differ materially from those anticipated. There can be no assurance that forward-looking statements will prove to be accurate and accordingly readers are cautioned not to place undue reliance on forward-looking statements.

Neither the TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.
