

Constantine is committed to responsible mineral exploration and to supporting local jobs and businesses. We are excited about the 2019 summer field season at the Palmer Project in Southeast Alaska, a promising mid-stage mineral exploration project with the potential to become a future high-grade, underground copper-zinc-gold-silver-barite mine. Our field program provides an opportunity for exciting and rewarding teamwork in a professional outdoor environment.

JOB POSTING: GEOTECHNICIAN

LOCATION: Near Haines, Alaska – Palmer Camp (7 ½ Mile, Porcupine Road); local workers are responsible for their own transportation

GENERAL DESCRIPTION:

- Geotechnical work with drill core, including measuring and photographing drill core, measuring and recording fracture density and type, specific gravity determinations, and data entry
- Handle drill core and samples, and assist marking core for sampling
- Potential to assist with geological, environmental, and geotechnical studies
- All work is camp based

EDUCATION, SKILLS & EXPERIENCE:

- Ability to repetitively lift and carry 35–50 pounds
- Self-motivated with good attention to detailed procedures, and safety requirements
- No experience necessary; high-school diploma and post-secondary science credits are assets
- Proficient with common computer skills including preparation of documents and presentations, spreadsheet use, database data entry, and email use

MINIMUM AGE: 18

RATE: \$18–\$26 per hour, commensurate with experience

HOURS: Generally, 7 AM to 5 PM, schedule varies with drill productivity

This position is temporary and seasonal, between late May and September. We thank all applicants for their interest, however, only those selected for an interview will be contacted.

This position closes **April 19th, 2019 or when filled.**
