

JOB POSTING: CORE LOGGER

LOCATION: At the Palmer Project camp near Haines, Alaska (7.5 Mile, Porcupine Road); all work is camp based.

DURATION: Approximately late July through mid-October

JOB RESPONSIBILITIES

- Geotechnical and geological core logging, including associated data plotting and geological interpretation
- Drill core sampling and shipment preparation
- Assistance with drill alignment and downhole surveying
- Potential to assist with geological, geotechnical, and environmental field studies

QUALIFICATIONS

- Possess a Bachelor of Science in Geology and/or Earth Sciences
- 1-3 years logging experience preferred
- Ability to repetitively lift and carry 35-50 pounds
- Self-motivated with good attention to detailed procedures and safety requirements
- Have a proactive, safety-driven mindset. Follow company safety and environmental standards
- Proficient with common computer skills including spreadsheet use and data entry
- Must have valid first aid certification
- Must possess a current valid driver's license and an acceptable driving record

SCHEDULE: Full time seasonal, generally 7:30 AM to 5:30 PM.

RATE: \$300–\$315 per day depending on experience.
