

Constantine Mining LLC is focused on exploration and advancing its Palmer VMS Project in Southeast Alaska to feasibility through a joint venture partnership with Dowa Metals & Mining. Constantine Mining is committed to providing shareholder value through discovery and responsible mineral exploration and development activities.

JOB POSTING: GEOLOGIST

Location: Palmer Project – near Haines, southeast Alaska

Duration: Approx. mid-May to September 30

JOB RESPONSIBILITIES:

- Work with senior geological staff to provide technical day-to-day support to exploration activities
- Core logging, section generation, data plotting, and geological interpretation
- Digital entry and management of drill log, field data and sample data
- Geological reporting of exploration results
- Field mapping and prospecting
- Additional duties may include assistance with environmental and geotechnical field surveys and data collection, and general camp and field program support

QUALIFICATIONS:

- Bachelor's Degree in Geology or equivalent required
- One to five years of professional experience as a geologist, including core logging
- Have a proactive, safety-driven mindset and follow accepted safety best practices
- Knowledge of geologic fundamentals, ore systems, and mineral exploration
- Proficiency or familiarity with exploration software such as Leapfrog, Target, GeoSpark and Arc GIS
- Effective communication and organization skills
- Ability to work in adverse weather and glaciated, mountainous terrain
- Must possess a current valid driver license and an acceptable driving record
- Valid first aid certificate

This position is seasonal, temporary and open until filled. The start date is: *TBD*.

*Qualified applicants interested in joining our dynamic team are encouraged to submit a cover letter and resume with **GEOLOGIST** in the subject line to:*
